

KARGER BOOK - EXPERT FOR NEWSLETTER CASE REPORT QUIZ

As you may have heard at our 4th World Congress of Paediatric Ophthalmology and Strabismus at Hyderabad, India, last December; the cases from our Newsletter Global Case Report Quiz are being made into a book by Karger. This book will be edited by Drs. Kimberly Tan (Australia) and Fernando Prieto-Diaz (Argentina). We are aiming at publishing the first 12 cases initially.

All our cases have a PowerPoint presentation, where we describe a clinical case, the diagnostic work-up involved, the treatment plan (Medical & / Surgical) employed, etc. At the end of the presentation, we pose a question(s) to our members, as to 'What should be done next?' & request them to answer the question(s) asked by selecting one of the options provided. We also ask open-ended questions (those which encourage a write-in option) which we request Experts (selected from our Global Consult Bureau) to answer, in addition to the question(s) asked to our members.

To this end, we would like to invite our members to send their resumes should they be interested in joining the WSPOS Global Consult Bureau as Experts. We have both Strabismus as well as Non-Strabismus cases as part of our Newsletter Global Case Report Quiz & would like to call for Experts for both. Please send an email with your résumé to admin@wspos.org with the Subject line 'NGCRQ - Karger book' to join our Global Consult Bureau as an Expert.
