

WSPOS SECTION IN JOURNAL OF OPHTHALMIC RESEARCH

The [Journal of Ophthalmic Research by Karger](#) is a journal for Translational and Clinical Research. It features original papers and even reviews in the field of ophthalmology and vision research. The current impact factor of the Journal of Ophthalmic Research is **1.826**.

WSPOS is associated with its Paediatric Ophthalmology and Strabismus arm & will soon have a dedicated section within the journal. Professor Paulo Nucci (from Italy) will be the WSPOS section editor & Dr. Eduardo Silva (from Portugal) will be the WSPOS Representative on the Journal's Editorial Board. [We invite all our members to submit manuscripts to the Journal of Ophthalmic Research.](#)

We would also like to invite our young members to sign up as reviewers. It doesn't matter if you've NEVER reviewed a manuscript before; we will provide you with a Review Buddy - i.e. you will be supervised by a senior expert in the review process until you become an expert reviewer yourself, after which you might even be called upon to mentor a newbie reviewer :)

Please send an email with your résumé to admin@wspos.org with the Subject line 'WSPOS - Journal of Ophthalmic Research Reviewer' if you'd like to join our bank of 200 Reviewers.
